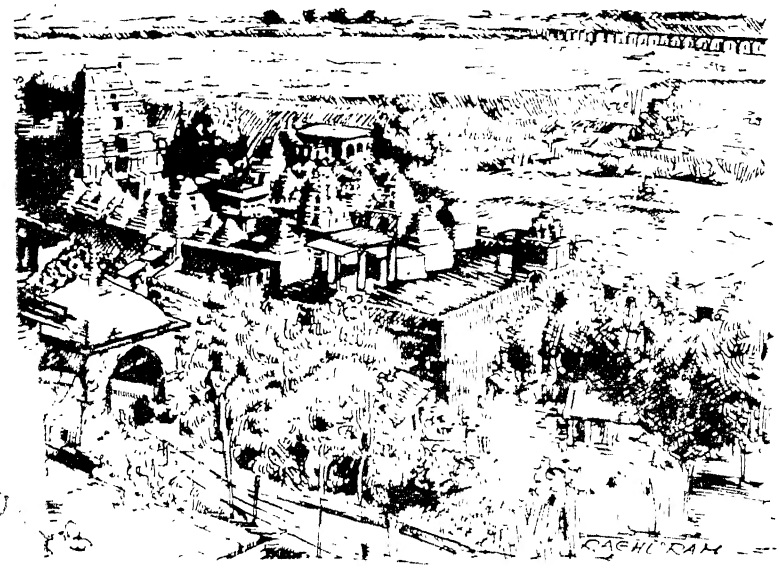
THE TEMPLE OF BHADRACHALAM



The motif presented on the cover page represents the famous Bhadrachalam Temple located on the left bank of river Godavari in Bhadrachalam taluk of Khammam district. This sacred seat of Lord Rama has a historic background of several centuries, and is recognised as one among the 25 noted "Rama Kshetrams" of our country. This pious centre in merit, is considered next to Ayodhya, as the Lord is named as "Bhoga Rama" befitting the status of an emperor's son. In Gautami Mahatmya of Brahmanda Purana the following couplet is written regarding the origin of this place :

"Bhavishyasi Mahatmatwam
Bhaktani Giriroopodhruth
Rambhadra Padankatwat
Bhadradri riti Vishrutaha"

Two versions are prevalent about the origin of the name of Bhadrachalam. One section believes that due to Ramchandra's brief stay on this mountain, this place has come to be known as 'Bhadradri', after the name of the Lord. Another equally popular version is that this mountain is named after 'Bhadra' by his parents Meru and Menaka who with hard penance earned a boom from the Lord to settle on his tower. The Lord's lotus feet on Bhadra's head is still seen in the temple which is worshipped by devotees. Lord Sri Rama's exile symbols-Panchavathi, Parnashala, Godavari, Sabari Etapaka, Lakshmana Gutta, Ravana Gutta, all have got face value of epic Ramayana, which has led the famous Historians to the conclusion that this place is sanctified by the stroll of Sri Rama in his sojourn. During exile period, sages Bharadwaja, Agastya. etc., guided him in his mission, to clear the earth from Rakshasas or demons who were perpetuating "Adharma". As per the second version, Lord manifested Himself in the 'Paratattwa' shape, as per his previous boon granted to Bhadra Rishi with four hands, holding bow and arrow in front hands, conch and disc, decorating his rear hands, sitting in 'Padmasana' with his consort on the Left thigh and brother Lakshmana standing on same left side. One more peculiarity about the image of Lord Rama here is that while the image of Lord Vishnu has the 'Chakram' in the right hand and 'Sankhu' in the left Sri Rama has it vice versa. The following is the pertinent explanation for this. Lord Vishnu takes an incarnation in each 'Yuga' for destroying the wicked and protecting the virtuous as explained in the following verse : 'Parithraanaaya Sadhunam, Vinaasaayacha dushkrutham, Dharmasamsthaapanaarthaaya Sambhavaami Yuge Yuge'. Lord Rama had finished the task of destroying Ravana and his rakshasas. He had no more use for his 'Chakra' which had therefore been assigned a place in His left hand. His next task was to protect the virtuous, for which He had taken 'Sankhu in His right hand. Here the Godavari is known as "Gautami" which is supposed to be a channel of the Ganges brought by sage Gautama which circumambulates this pilgrim centre from three sides and is called by various sages' names as "Vasistha, Kaushika, Vynatheya and Jamadagni" as foster daughter of the sages. After the efflux of many centuries the present idols installed in the temple were picked up by one "Pokala Dammakka" a great devotee belonging to the 'Sabara' (Savara) community. The Lord appeared in her dream and revealed the location of idols left without any worship on 'Bhadragiri', the present location of the temple of the Lord. Thus, the poor woman of 'Bhadrireddipalem' village (Pokala Dammakka) raised a modest structure and introduced daily worship and 'Kalyanam' offering wild berries as food, which Sabari, of Ramayana offered to Lord Rama.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *Inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but in the regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres and communiy health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *Inter Alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/Town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I. A. S., Director of Census Operations, Andhra Pradesh, Hyderabad on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

NEW DELHI
The 26th April, 1982

P. PADMANABHA
Registrar General. India

PREFACE

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Governments. The chapter on HISTORY OF DISTRICT CENSUS HANDBOOK details its history and growth right from the inception of Census in 1872, while the foreword of the Registrar General and Census Commissioner, India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981, in the presentation of data so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, admisistrators, academicians, scholars, researchers, social workers, etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and land use pattern to meet the needs of micro-level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs Programme, by adding statements on civic and other amenities in slums in Class I and Class II Towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels, etc. In the process of collection of data for this volume, various State and Central Gcvenrnment departments have extended their kind co-operation. The District Census Handbook comprises two parts—Part A – detailed analytical note supported by a number of inset tables based on Census and non-Census data in relation to infrastructure and Part B – Village and Town Directories as well as Primary Census Abstract of Villages and Towns.

In this joint venture of the State and Central Governments, while the collection, processing including compilation, tabulation and finalisation of the writeup have been done by the Directorate of Census Operations, Andhra Pradesh, under the Ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri S. R. Rama Murty, I. A. S. (Retd.) fromer Chief Secretary of the Government of Andhra Pradesh and Sri M. Appa Rao, Joint Secretary (Retd.), General Administration (Elections) Department for the kind co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I. A. S., the present Chief Secretary, Sri B. N. Jaya Simha, I. A. S., Special Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P. V. Gopal Rao, I. A. S., Deputy Secretary, General Administration Department, for extending their kind co-operation. The Director of Printing and Stationery has been helpful in selecting good private presses for printing the Handbooks.

My grateful thanks are due to Sri S. S. Jaya Rao, I. A. S., Director of Census Operations, Andhra Pradesh, under whose direction the entire Census Operations programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984. I am extremely grateful to Sri P. Padmanabha, I. A. S., Former Registrar General and Census Commissioner of India, whose constant guidance and advice were a source of strength and to Dr. N. G. Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr. B. K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M. M. Dua, Senior Research Officer (now Deputy Director), who has scrutinised the data presented here with very minute care. I feel it a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V. S. Verma, I. A. S., Registrar General and Census Commissioner, India and to Sri V. P. Pandey, Joint Registrar General, India for their constant guidance and advice in both administrative and technical matters.

PART A

ANALYTICAL NOTE

KHAMMAM DISTRICT

HISTORY

Khammam District was newly formed on 1st October, 1953 with the five taluks viz., Khammam, Yellandu, Bhoorgampadu, Palvancha (Kothagudem) and Madhira taluks transferred from Warangal district in accordance with the orders issued in the Notification No. 48/A4/193/53, dated 18th September, 1953 of the erstwhile Hyderabad Government. This district was constituted in 1953 as it was felt that Warangal district was too extensive and unwieldy for purposes of administration. There was a persistent agitation for the bifurcation from the inhabitants of the eastern taluks which were far more backward than the western taluks. It was felt that a separate administrative unit exclusively for the eastern taluks would be conducive to the economic progress of these taluks and also help the maintenance of law and order. Warangal district was, therefore, bifurcated and Khammam district was constituted on 1st October, 1953 with the headquarters at Khammam town. In 1959, Bhadrachalam taluk and Nugur Independent Subtaluk of East Godavari district, which were not easily accessible to Kakinada, the district headquarters, were transferred to Khammam district for administrative convenience.

The area comprising the present Khammam district originally formed part of the Kakatiya kingdom and after its downfall, it became part of Bahmani Kingdom. Later it came under the control of Qutb Shahi dynasty of Golconda and on its fall was annexed to Mughal Empire from which it was detached in the early part of the eighteenth century on the establishment of the Hyderabad State by the Asaf Jahi dynasty. Finally, it became part of Andhra Pradesh with effect from 1st November, 1956 under the scheme of Re-organisation of States. The early history of the Deccan of which Khammam district forms a part is given below.

Early Hindu period

In pre-historic times the great Dravidian race occupied Southern India including a major portion of the Deccan plateau. It is uncertain when the Aryans invaded the Deccan. The empire of Asoka (273–231 B.C), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B. C. Gradually extending their sway from Krishna delta they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in the third century A.D.but the reasons for the collapse are little known.The Pallavas who ruled South of Krishna might have extended their power to this region.The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A. D. and founded an empire spreading east and west across the peninsula with their capital at Kalyani. Pulakesin II (608-642 AD), ruled practically the major portion of South India-South of Narbada river and even came into contact with Harshavardhana of Kanuj. Throughout their period of supremacy, the Chalukyas were at war with the Pallavas. In the middle of the eighth century the Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. From about 973 A. D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, in spite of fierce struggles with the Cholas and Hoyasalas of Dwarasamudra. The Chalukya power fell by about 1189 A. D. to the Hoyasalas and Yadavas, the later of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

Muhammadan period

Alla-ud-Din Khilji led the first Muhammadan expedition into the Deccan, in 1294 against the Yadava ruler of Deogiri and coerced him into submission. In 1296 he assasinated his own uncle and seized the throne, and sent an expedition to Deogiri. His first expedition was despatched in 1303 against the Kakatiya kings of Waran-

Source : An extract from DCHB, Khammam District. AP. 1961 PPA11 - A13

gal, who had established themselves there since the middle of the 12th Century. This having failed, he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of the Raja who agreed to pay tribute. Muhammad-bin-Tughlak later conducted a campaign against Warangal and finally broke the Kakatiya power in 1321. In 1310, Malik Kafur was sent against the Hoyasala Raja of Dwarasamudra (Halebid in Mysore). In 1318 when Harpal, the Deogiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad - bin - Tughlak ascended the throne in 1325 at Delhi, the Muhammadans were masters of the Deccan from North to South: the chief Rajas of Telangana acknowledged their sway and paid tributes. He changed the name of Devagiri to Daulatabad and made it his capital. A few years later, the Imperial Governors of the deccan revolted resulting in the establishment of the Bahmani dynasty. Zafar Khan, who styled himself as Alla-ud-Din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga, he made the latter place his capital and commenced to reign in 1347 A.D. The Bahmani kingdom extended from Berar in the north to the left bank of Tungabhadra in the south and from Dabal on the West coast to the Telangana tracts in the east. After the fall of this dynasty the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahmani Kingdom after the downfall of the Bahmani dynasty had many vicisitudes and constant wars with the rulers of Bijapur and Berar and he died in Daulatabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of shah. In 1565, he marched along with the other Deccan Kings against the Rajah of Vijayanagar and in the memorable battle near Rakshasi Tangadi, the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other kings. The Qutub Shahi dynasty next came into prominence. Sultan Kuli, Qutub-ul-Mulk, a Turk of noble family who was Governor of the Golconda Province under the Bahmanis took advantage of the distracted state of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his independence establishing the Qutub Shahi dynasty which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them, but after defeating the invaders they fell out among themselves, enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdullah Qutub Shah. In 1635 AD. Shah Jahan who had by then become the emperor, sent a farman to Golconda which was well received. Mir Jumla, the King's Minister, appealed to Aurangazeb for help against his master in 1655 A. D. and this afforded a pretext for Aurangazeb to invade the territory. Hyderabad was plundered, but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A. D. and was succeeded by his nephew Abdul Hasan also called Tana Shah. After tha fall of Bijapur in 1686 A. D. Aurangazeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A.D. and with him the Qutub Shahi line ended. This dynasty was followed by Asaf Jahi Dynasty to which the former Nizam belongs. The Asaf Jahi dynasty was founded by Asaf Jah, a distinguished General of Aurangazeb, a Turkoman by descent. After a long service under the Delhi emperor, he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D.with the title of Nizam-ul-Mulk,which has since become the hereditary title of the family. The Mughal Empire at this period was on the verge of decline owing to internal dissensions and attacks from without. Amidst the general confusion Asaf Jah had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A

battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D., when Mubariz Khan was totally defeated and put to death. This battle established the independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. Khammam district alongwith the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf Jah, Nazir Jung his second son, and Muzafar Jung, his grandson by one of his daughters, strove for the succession. At this time the English and the French were contending supremacy in the East and each of the claimants secured the support of one of these powers ; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung was proclaimed the sovereign. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung a brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi-ud-din, the eldest son of Asaf Jah, who, it was alleged, had relinquished his claim at first, now appeared as a claimant, supported by the Marathas, but his sudden death put a stop to further struggle. The English and the French were now contesting power and influence in the Deccan; but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf Jah at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A D., the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in times of war, and received six lakhs of Rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D., by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him, on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and treaty of alliance was concluded between the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among the allies. In 1798 A. D., another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the peshwas from the treaty. In 1800 a fresh treaty was concluded between the Nizam and the British by which the Nizam ceded all the territories which had accrued to him under the treaties of 1792 and 1799, i. e., Cuddapah, Kurnool, Anantapur and Bellary districts known as the ceded districts of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829, his son Nasir-ud-Doula succeeded. Nasir-ud-Doula died in May, 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869 on the death of Afzal-ud-Doula, his son Mir Mahbub AliKhan Bahdur became the ruler. As he was only three years old then, a regency was constituted for the administration of the country, with Salar Jung I as regent and Nawab Shams-ul Umara as co-regent, the British Resident being consulted on all important matters concerning the welfare of the State. On the death of the co-regent in 1877, his half brother Nawab Vikar-ul-Umara was appointed as co-administrator but he also died in 1881, Sir Salar Jung remaining sole administrator and regent till his death in 1883. In 1884, Mir Mahbub Ali Khan having attained majority, was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911 Mir Osman Ali Khan ascended the throne. In 1947 when the country attained independence, the princely states were given the choice either to remain independent or to join the indian Union. The Nizam's Dominions became part of Indian Union in 1948, as a part B State and in 1956 during the Re-organisation of States, the Hyderabad State was trifurcated and

and the nine predominantly Telugu speaking districts of Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga, Bidar were transferred to Mysore State (renamed Karnataka State) while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani, Nanded and portion of Bidar which is predominantly Marathi speaking area was transferred to Maharashtra State. These changes were effected on 1st November, 1956.

PHYSICAL ASPECTS

General : The district of Khammam derived its name from its headquarters town, which in turn appears to have derived it from a hill known as the Stambhadri located in the heart of the town. The town was termed variously as Stambhadri, Stambhagiri, kambagiri and Khammamett. Khammamett is a Telugu Version of Stambhadri.

Khammam district was formed on 1st October, 1953 with five taluks of Warangal district for Administrative convenience. Subsequently, Bhadrachalam taluk and Nugur independent sub-taluk were transferred to this district from East Godavari district in 1959. These two taluks are geographically contiguous to Khammam district.

Khammam district lies between 16°45' and 18°35' north latitudes and between 79°47' and 80°47' east longitudes. It is bounded on the north by Madhya Pradesh and Orissa States, on the South by Krishna district, on the east by East Godavari and West Godavari districts and on the West by Nalgonda and Warangal districts.

The district extends over an area of 16,029 Sq. Kms and has a population of 1,751,574 according to the 1981 Census count. The district at present consists of 12 taluks namely (1) Nugur (2) Bhadrachalam (3) Bhoorgampadu (4) Mangooru (5) Sudimalla (6) Yellandu (7) Kothagudem (8) Aswaraopet (9) Sathupalle (10) Madhira (11) Khammam (12) Thirumalayapalem.

Hills : There are a few minor, isolated lines of hills traversing the central and eastern part of the district. Marrigutta, Rajagutta and Yerragutta are the important hills in this district.

Climate : The climate of this district is characterised by a hot summer and good seasonal rainfall. The summer season is from about the middle of February to about the first week of June. The temperature during summer shoots upto 110°F. The southwest monsoon season which follows, lasts upto the end of September, October and November constitute the post-Monsoon or retreating monsoon season. December to the middle of February is the season of generally fine weather.

Rainfall : The average annual rainfall of this district is about 1018.1* mm. The district receives about 78% of the annual rainfall during the southwest monsoon period. The rainfall in the district increases from the Southwest to the northeast.July is the rainiest month. During the pre-monsoon period, some rainfall occurs mostly in the form of thunder showers.

Flora : The flora of this district is broadly classified into timber, softwood, fuel, bamboo, shrubs, climbers, grasses etc. Of thsse, the important timber species found in the district are teak (Tectona grandis), Bijasal or Yegi (Pterocarpus Marsupium), Tunki (Diospyros Melanoxylon), Sandra (Acacia Sundra). Of the softwood species, Anduk (Boswellia Serrata), Tapsi (Sterculia Urens), Burugu (Bombax Malabaricum), Gumpena (Lannea Grandis), Garuga (Garuga Pinnata), Punki (Givotia rottlere- formis), Pala. Kodshaor Repala (Wrightia tinctoria) etc. are Important.

There are only two species of bamboo in this district. Thay are *Bongu Veduru* or *Mullu Veduru* (Bambusa arundinacea) and *Sadanapu Veduru* or *Sadanam* (Dendrocalamus Strictus). Of the common shrubs, *Danti* (Gymnosporia montana), Nulthada (Helicteres Isora), Pala Bariki (Holarrhena antidysenterica), *Chittita* (Phoenix humilis), *Vempali* (Tephrosia Purpurea), *Panchothkam* (Bri-

delia Hamiltoniana), *Chittijana* (Grewia hirsuta), *Jaji* (Woodfordia floribunda) and *Papadi* (Pavetta indica) deserve mention.

The climbers found commonly in the forests are *Guruginja, Gachcha Tiga* (Caesalpinia Crista), *Sugandhapala* (Hemidesmus indicus), *Tippa Tiga* (Tinospora Cardifolia) *Pariki, Pala Tiga* (Cryptolepis Buchanani), *Kondagurvatiga* (Smilax macrophylla), *Korinta* (Acacia Intsia), *Pilligaddalu* (Asparagus racemosus), *Bontha Tiga* (Calycopteris floribunda), Tumki (Beedi leaf), Karakkaya or Halela (Terminalia Chebula), Tamarind (Tamarindus indica) etc., belong to the species yielding minor forest produce.

Fauna : Khammam district is noted for the richness of fauna. Among the carnivora, tigers, panthers, wolves, Jackals, wild-dogs and wild-cats are found. Among the herbivora, bears, cheetal, sambar, chinkarn, nilgai, gaur, wild-boars, monkeys, hares etc., are commonly found. The number of tigers, gaur and peacocks are fast disappearing.

Among the avifauna, jungle fowls, peacocks, patridges, pigeons, ducks and teals are seen in the forests.

Rivers : The important rivers which flow through this district are the Godavari, the Sabari, the Kinnerasani, the Muner (Muneru) the Paler (Palair) (Palleru), the Akher (Akeru) and the Wyra (wira). The largest river of South India, the Godavari, rises near Triambak in Nasik district of Maharashtra state and enters this district near Chandupalle village in Nugur taluk. After flowing a distance of 18Kms.in the South easteran direction, it leaves this district at Kollur village of Bhadrachalm taluk. The river Sabari Joins Godavari at Kunavaram. The Kinnerasani, another Important tributary of the Godavari, forms the boundary between Bhoorgampadu and Kothagudem taluks and after traversing in the Southeastern direction, it falls into the Godavari near Sridharaveluru of Bhoorgampadu taluk. The Muner river takes its birth at the Yelibuligutta near Kistapuram (Kistnapuram) village of Gudur taluk of Warngal district and flows southwards in this district. Muneru drains Yellandu and Khammam taluks and after a course of 154 Kms. joins the Krishna river. The paler river takes its origin in the plains of Kuruchapalle (Kursapalli) village in Jangaon taluk (warangal district) and flows almost parallel to the Muner. It joins the Krishna at a place about 11 Kms. South of Jaggayyapet after passing through Kakarvai village in Thirumalayapalem taluk. River Akher which also rises in warangal district flows in the south eastern direction and joins river Muner at Tirthala in Thirumalayapalem taluk. River wyra is a tributary of Muner. It forms a tank near Singarayapalem and then flows southwards into Madhira taluk and joins Muner and finally falls into river Krishna.

Changes in administrative unit and its component parts: The district was not a homogeneous administrative unit in the past and its component parts were at different periods of time under the control of different dynasties namely, the Satavahanas, Eastern Chalukyas, Rashtrakutas, Western Chalukyas of Kalyani, Kakatiyas, Musunuri Chiefs, Recherla Chiefs, Bahmanis, Qutb Shahis, Mughals andAsaf Jahis. Khammam was formerly a district having all the taluks of the present Warangal district till A.D.1905 when Warangal was made the district headquarters. To maintain law and order effectively and bring about administrative efficiency,the district of warangal was bifurcated on the 1st of October, 1953 and Khammam district was created with the taluks of (1) Khammam (except Kamepalle and Sirvole (Sirivole) villages), (2) Yellandu (3) Madhira (4) Bhoorgampadu and(5) Palwancha (Paloncha). The headquarters of the district was however, kept in the ancient town of Khammam. During the same year, the villages of Kamepalle and Sirvole, which were in Khammam taluk, were transferred to Mahbubabad taluk of Warangal district. After the formation of this district, minor changes were effected within the district. The most important accession to the district on grounds of geographical contiguity was the transfer of the taluks of Bhadrachalam and Nugur from East Godavari district in 1959. Again in the year 1960, the headquarters of Palwancha taluk was shifted to Kothagudem and then onwards the taluk came to be known as Kothagudem taluk. Both at 1961 and 1971 censuses. the dis-

trict consisted of seven taluks viz. Khammam, Madhira, Yellandu, Kothagudem, Bhoorgampadu, Bhadrachalam and Nugur independent sub-taluk.

At the 1981 Census there are 12 taluks which have been grouped under three revenue divisions as shown below :

STATEMENT SHOWING THE REVENUE DIVISIONS, TALUKS AND TOWNS IN KHAMMAM DISTRICT, 1981

Sl. No.	Name of Sub-division/ Revenue Division	Name of Taluk	Name of Town (M)/(P)

Note : 1 The district ''Geographical Area'' figures are as supplied by the Surveyor General, India.

2 The total of the area figures of taluks will not tally with the district area figures because the former represents landuse area and are derived from the figures supplied by the State Survey Department.

3 Villages shown under column 5 do not include the villages under column 8

MAJOR CHARACTERISTICS

Khammam district has 8,642.15 Sq. kms. of forest area forming 53% of the land area. A forest Circle with five territorial divisions, has been formed with headquarters at Khammam. They are (i) Khammam (1,246.26 Sq. kms.); ii) Kothagudem (1,555.62 Sq. kms.); iii) Palwancha (2,025.83 Sq. kms.); iv) Bhadrachalam North (1,968.54 Sq. kms.) and v) Bhadrachalam South (1,632.20 Sq. Kms). Besides the above five divisions, there are two Logging divisions, one teak plantation division and a School of Forestry at Yellandu imparting training in Forestry to the Foresters and Forest Guards drawn from the entire State. Timber, firewood and bamboo are the main forest produces which gained considerable market. In fact the district is self-sufficient in wood for the numerous industries located in the district viz, Singareni Colleries, Bhadrachalam Paper Mills, Ferro Alloys and Tobacco barns. Surplus forest produce of this district is being sent to the less forested zones of Nalgonda, Krishna, Guntur and Nellore districts. An important utilisation is, supply of hutting material for weaker section housing programme and basket making. The district is one of the main centres for production of beedi leaves. The minor forest produce is allowed to be collected by the Girijan Co-operative Corporation for the welfare of tribals. Intensive forest development programmes have been initiated in this decade which include (i) departmental extraction of timber, fuel and wood (which includes propagation of scientific logging techniques), (ii) plantations of timber species; and (iii) Industrial raw material plantations by the Andhra Pradesh Forest Development Corporation. The achievements in different fields of activities during the decade increased from year to year as shown in the following statement :

Activity	Achievements	
	1970-71	1979-80
(1)	(2)	(3)
1 Production of Tiber	4,367 Cum	27,412 Cum
2 Production of firewood	31,685 Cum	1,69,948 Cum
3 Production of bamboo*	50 Tons.	8,284 Tons
4 Production of bamboos by Bhadrachalam Paper Board Limited	...	14,938 Tons
5 Production of Beedi leaves	72,075 Bags	4,83,605 Bags
6 Revenue from sale of forest produce	Rs. 70,86,374/-	Rs. 3,04,00,990/-
7 Total teak plantations raised in the year	8,771 Hcts.	14,884 Hcts.
8 Total bamboo plantation raised upto	2,354 Hcts.	5,586 Hcts.
9 Total Eucalyptus plantation raised upto	877 Hcts.	1,875 Hcts.
10 Industrial Plantation of A.P. Forest Development Corporation	...	14,140 Hcts,

* This figure does not include supplies made to A. P. Paper Mills, Rajahmundry and Sirpur Paper Mills, Sirpur.

Minerals and Mining : Khammam is potentially a very rich district, having pretty good resources of mines and minerals. The Coal field at Kothagudem, Yellandu and Bhoorgampadu are of national importance. The important minerals that are found besides coal are barytes, iron ore, chromite, graphite, copper, marble, mica, limestone and calcite etc. With an exception to Singareni Colleries, Khammam is industrially a backward district. Only after 1971, some other industries like i) Navabharat Ferro-Alloys; ii) Bhadrachalam Paper Board; iii) Andhra Pradesh Steel Limited and iv) The Barium Chemical Limited sprang up.

Electricity and Power : There is a big Thermal Station at Palwancha with an installed capacity of 680 M. W. which is the main source of supply to the State. The District has a lot of developmental area for which electricity has to be extended. Out of the 1,101 inhabited villages and 7 towns during 1981, 525 villages and 6 towns were electrified constituting 48% of the total Villages. With the advent of cluster of schemes

financed by Rural Electrification Corporation New Delhi, electrification programme has made rapid strides. Eleven clusters have been taken up throughout the district with a view to provide electricity to many of rural villages, with the financial assistance of Rural Electrification Corporation, New Delhi. These schemes were mainly intended for tribal areas of Bhadrachalam, Kunavaram, V.R. Puram, Bhoorgampadu, Aswaraopet, Sudimalla, Nugur blocks. Prior to 1971, there were 2,160 agricultural consumers of electricity forming 15.43% of the total consumers (14,000) of electricity. To the end of 1980, the total consumers served with electricity have increased to 44,600 and the agricultural consumers to 6,700 To cope up with the increased demand of power, during 1971-80,sub-transmission system has been increased.

The five major industries established in Palwancha and Bhadrachalam belt viz., i) Navabharat Ferro - Alloys; ii) Bhadrachalam Paper Board; iii) A P. Steels Limited; iv) Sponge Iron Limited and v) Singareni Colleries use power to about more than half of the distrct demand.

Land Use : Of the total area of 1,217,056.98 hectares of the district, an extent of 446,948.25 hectares has been assigned for cultivation forming 36.72%. Of the total cultivable area only 17.45% is irrigated.

Agriculture : This district is relatively backward compared to other districts of the State in regard to its production of food grains and the area under cultivation, though this district is predominantly agriculture in character and the majority of its population is engaged in agriculture and allied pursuits. Due to lack of irrigational facilities, the entire cultivable area could not be tapped. However, due to the creation of increased irrigation potential, the area under paddy has gone up from 51,330 hectares during 1971 to 1,15,000 hectares during 1980. Introduction of high yielding varieties of paddy increased the production potentials by 50% over the local varieties. From 1980 onwards, high yielding varieties occupied 70% of the total paddy area. Ordinary varieties of paddy, other crops like Jowar, bajra and maize have given place to high yielding varieties. Intensive cultivation practices are being adopted for growing chillies and tobacco. The total estimated production of cereal food crops of rice, Jowar, bajra and maize has gone up from 1,66,637 metric tons during 1971 to 2,83,600 metric tons during 1980. The area under mango orchards has been increased from 5,031 hectares during 1971 to 5,598 hectares during 1980. The details of consumption of fertilisers and plant protection chemicals are shown below :

Sl.	Type of Fertiliser	1971	1981
1.	Nitrogen Fertilisers in terms of N (in metric tons)	5,550	13,294
2.	Phosphatic Feritilisers in terms of P 205 (in metric tons)	2,169	7,682
3.	Potassium Fertiliser in terms of Kgs.	246	9,811
	Power chemicals		
1.	Power chemicals	8.39	496.0
2.	Liquid chemicals in Lts.	532.0 lts.	67,881.0 lts

Diagnostic team is also provided to cater to the needs of ryots in the form of identifying the soil problems. pests and disceases and to suggest remediable measures based on their demonstration results.

Animal Husbandry : Rapid strides have taken place in this district in providing a number of institutions catering to the needs of farmers. There is a substantial increase in veterinary institutions. In the year 1970-71, only 52 veterinary institutions were functioning in the district, whereas by 1980-81 the number has gone upto 215. The cattle population has increased to one lakh while the sheep and goat population increased to 1.10 lakhs. In the case of poultry, the increase is upto 40% due to taking of improved strides. The poultry population during 1970 live stock Census was 6.76 lakhs whereas in 1982 live stock Census it was 9.48 lakhs. There is a remarkable improvement in milk and milk products in the district due to improved practieces like cross-breeding and up-gradation of animals with development of new technology that was introduced in the district. Number of

schemes have been introduced for the benefit of weaker sections in Animal Husbandry sector to lift them from below poverty line. During 1971, on an average one veterinary institution was covering 22,000 cattle, whereas by 1980 for every 6,000 cattle, there was one veterinary institution. It shows substantial growth in veterinary institutions. The number of institutions and the staff position in 1971 and 1981 are as follows :

Institutions/staff	1971	1981
Veterinary Hospitals	5	8
Livestock Supervisory Units	17	49
Rural Livestock Units	15	141
Extension Officers (AH)	13	13
Others	2	2

There was a great spurt of Animal Husbandry activities in the district during the Fourth Five Year Plan and a number of schemes were sanctioned. In 1974-75, one Mini Intensive Cattle Development Block was sanctioned by the Government to augment the milk production in the district through upgrading of local cattle and through cross breeding with 63 centres under the control of one Regional Assistant Director. Mini size Intensive Cattle Development Block (ICDB) was sanctioned to take up cattle breeding programme on a larger scale by opening A.I Centres at Khammam and Kalluru for the improvement of local cattle for milk production. One livestock farm has been sanctioned in 1975-76 and located in Aswaraopet in an area of 141.64 hectares. Frozen semen technology has also been introduced in this district during 1980-81 in hundred centres provided with imported frozen semen containers.

Special livestock production programme has been initiated in this district for implementation of cross-breed calf rearing scheme, a centrally sponsored programme with a target of 5,000 units. The female cross-breed calves belonging to weaker sections included under this scheme for maintenance by supply of feed on subsidy from the age of 4th month and upto 32 months or to the date of calving whichever is earlier. 50% subsidy in case of small farmers and marginal farmers and in case of agricultural labourers 66.2/3% is paid by the Government and the rest is arranged as loan from commercial bankers which is to be recovered in easy instalments. 2,378 units with 2,325 beneficiaries have been grounded upto 1981-82 with a total outlay of 39.43 lakhs with subsidy component of Rs. 22.88 lakhs. The particulars of beneficiaries are as follows:

Distribution by occupational category		Distribution by social category	
Small farmers	346	Scheduled Castes	1,259
Marginal farmers	676	Scheduled Tribes	648
Agricultural labourers	1,303	Backward Classes	128
		Other Castes	290
Total	2,325		2,325

Breeding bulls have been supplied to interior tribal areas where there are no possibities of taking up artificial insemination programmes. These villages are fully aware of improved techniques of breeding. Distribution of livestock to weaker sections programme has been taken up by the Rural Development Agency, Integrated Tribal Development Agency, Scheduled Castes and Backward Classes Corporations in the district for the benefit of weaker sections. The Deputy Director is incharge of the district assisted by the five Assistant Directors located at Khammam, Kalluru, Kothagudem, Bhadrachalam and Aswaraopet besides four Assistant Directors each incharge of Semen Bank, Livestock Farm, Cattle Development and Fodder Development Programmes. The headquarters of Regional Joint Director is also located at Khammam who is incharge of both Khammam and Warangal districts.

Fisheries : Khammam district is rich in fishery potential with its perennial sources like the Godavari, the Kinnerasani, the Taliperu, the Akher, the Sabari, the Paler, the Muner, the Wyra and the Katleru besides a good number of tanks. There are 1,430 tanks in the district covering a water spread area of 8,130 hectares. Out of these, 324 tanks are under the control of Fisheries Department with a water spread area of 4,320 hectares.

Department of fisheries is providing amenities like supply of nylon yarn, supply of qualitative fish seed, financial assistance under various agencies to weaker sections viz., Harijans and Tribals whose livelihood is fishing. In addition to the lease of tanks on nominal rentals, every effort is made to increase their socio-economic condition on par with the other forward class communities in this district. There are 54 Primary Fishermen Co-operative Societies existing in this district with a total membership of 2,560. All the Departmental and Gram Panchayat tanks are being leaesd out to these Fishermen Co-operative Societies on average rental basis They were also being supplied with the quick growing varieties of fish during 1981-82 with the result there was bumper fish production. The fishermen Co-operative Societies are also being advised technically for regular feeding and manuring of the ponds.

Under the guidance of Director of Fisheries and District Collector, Khammam, fishermen, Harijans and tribals are provided with the following amenties and financial assistance.

Supply of nylon yarn: 71 beneficiaries have been supplied 142 Kgs. of nylon yarn at 25% subsidy under annual plan.

Through the scheme of Financial Assistance under various agencies, an amount of Rs. 1,33,900/- has been granted towards share capital, purchase of nylon yarn and construction of godowns to five Fishermen Co-operative Societies in the district. The total beneficiaries were nearly 300 persons.

Under Integrated Tribal Development Agency Scheme, 10 units of fish culture in ponds have been taken up with Rs. 50,000/- for the benefit of Tribals. Apart from this, four tribals were selected to impart training in fisheries technique at the inland Fisheries training institute, Warangal at a total cost of Rs. 7,000/-.

Under District Schedhuled Castes Co-operative Society Limited scheme, Fisheries Department has been given a target to cover 1,000 Scheduled Castes candidates. The Nagarjuna Grameena Bank also provided financial assistance for success of the scheme. The achievements are as follows :

	Scheduled Castes	Backward Classes
1 No. of beneficiaries grounded	664	313
2 No. of beneficiaries identified by the District S. C. B.C. Ltd., Khammam	664	166
3 Marginal money sanctioned	Rs. 3,32,000/-	

An amount of Rs. 15,000/- has been sanctioned by the Nehru Yuvajana Kendram (Youth Centre), Khammam for imparting training in Fisheries to 100 fishermen youths. The training classes are expected to commence later. So far, an amout of Rs 3,67,000/- has been granted and released towards 50% subsidy and 496 fishermen members have been benefitted under S. F. D. A. (DRDA) Scheme. The Nagarjuna Sagar canals brought a bright future and encouragement to the fishermen in this district. So far, 8 units for 8 private pisciculturists of weaker sections have been recommended to the tune of Rs. 1,28,500/- and bank loans are being arranged, by Nagarjuna Grameena Bank. Due to Nagarjuna Sagar irrigation system in the district, the originally built tanks are no longer required. Under socio-economic development, construction of a fishermen colony for fishermen is under active consideration in Khammam town.

Industries : Tangible progress has been made in industrialisation during the decade 1971-80 in Khammam district. Out of the nine large-scale industries, six (6) units have been set up during 1971-80 based on the availability of natural resources and necessary infrastructural facilities. These units bearing national importance, have been providing employment to a large number of technical persons from within and outside areas also. The details of units are given in the following statement

Sl. No.	Name of the Unit	Location	Line of manufacture	Capacity	Investment (in lakhs)	Employment created
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1.	Bhadrachalam Paper Board	Sarapaka (Bhoorgampadu Taluk)	1. Paper Pulp 2. Paper Board 3. Writing Paper	50,000 Mts. 30,000 Mts. 20,000 Mts.	4,700	970
2.	A.P. Industrial Gases Limited	Palwancha (Kothagudem Taluk)	Oxygen Gas	1 Million Cubic meters	57	50
3.	Navabharat Ferro-Alloys	Palwancha (Kothagudem Taluk)	Ferro-Silicon	20,000 Mts.	293	110
4.	Sponge-Iron India Limited	Palwancha (Kothagudem Taluk)	Sponge-Iron	30,000 Mts.	1,600	172
5.	A. P. Steel Limited	Palwancha (Kothagudem Taluk)	M.S. & H.C. Steel Billets	60,000 Mts.	607	433
6.	Radha Krishna Solvents	Edulapuram (Thirumalayapalem Taluk)	Rice Bran, Oil Cake	23 Mts. oil per day 40 Mts. cake per day	53	115

Of the 900 existing Units of small-scale industries, 639 Units were set up during 1971-80 with an investment of Rs. 92 crores, employing 3,658 persons. Selfemployment scheme is launched to encourage educated un-employed youth in setting up small-scale industries and business ventures. 271 persons have set up 271 units with an investment of Rs. 76.80 lakhs. Under this scheme, 1,277 persons were benefited by taking margin money of Rs. 6.97 lakhs as loan from Government. Special employment scheme was launched in the last quarter of the decade with a view to assist weaker sections viz., Scheduled Castes, Seheduled Tribes and Backward Classes candidates to provide independent livelihood. By the end of 1980, with a capital investment of Rs.9.18 lakhs, 460 units were set up providing employment to 1,380 persons. From the total investment, a sum of Rs. 1.8 lakhs was given as loan and the rest was advanced by financial institutions, 3,164 artisans of different trades like carpenters, black smiths, potters, leather workers, etc. were provided with financial assistance of Rs. 13.90 lakhs to develop their economic standards and living conditions.

During the decade, Industrial Co-operatives of trades were organised in the district with a membership of 2,452 and paid up share capital of Rs. 2.57 lakhs. A sum of Rs. 6.55 lakhs was also provided as loan and grant from Khadi Board. Three Industrial Development Areas have been established at three places, viz., 1) Khammam; ii) Palwancha and iii) Bhadrachalam. The State Government also have introduced incentives to set up industries in select places.

Trade and Commerce : The important items of export from the district consist of coal, timber, firewood, charcoal, hides and skins, bamboos, barium salts, chemicals and agricultural commodities like rice, paddy, jowar, chillies, groundnut, oils and pulses. To promote grading consciousness among the growers and to ensure that the produce arriving into the market is free from foreign matter and is of uniform size apart from ensuring a reasonable price to the producer, grading at the farmers level has been undertaken and for this purpose groundnut is the main commodity selected.

With regard to imports into the district, mention may be made of yarn, mill cloth of various types viz , terylene, nylon and hosiery, medicinal products, colours, cosmetics, pesticides, fertilizers stainless steel, crockery, plastic and petroleum products, radios and their parts, raw jute, general and kirana goods- all of which constitute a sizeable proportion of the inward commerce. As per the Hyderabad Agricultural Market Act passed in 1930, four regulated markets-one each at Yellandu, Madhira, Kothagudem and Khammam were established to avoid unhealthy practices prevalent in the sale and purchase of agricultural commodites and also to ensure a fair price to the primary producer by taking members from among the growers and merchants.

In urban areas, wholesale markets which are popularly known as Mandis are the chief trading centres dealing in agricultural produce coming from the neighbouring areas. Many such centres are functioning at Kothagudem, Madhira, Yellandu and Khammam and a substantial portion of produce finds its way into them. With the development of trade, necessary facilites like easy and cheap credit to the ryots through important commercial banks postal savings, National Small Savings Scheme, Co-operative Organisations, Rural Banks, Large-sized societies etc., were also extended. Thus all these institutions are playing a significant role in the general economic development of the district

Transport And Communication : Khammam district is fairly advanced in transport facilities right from the beginning. Railways came into this district in 1888 when a portion of the line connecting Secunderabad with Warangal extended upto Dornakal. Within a year, the line was extended upto Vijayawada, facilitating thorough traffic even beyond Vijayawada also. The taluks availing railway facilities in the district are Yellandu, Khammam and Madhira. Another important railway facility in the district is the line connecting Dornakal (Warangal district) with the Singareni colleries. Another branch line of 45 Kms. connecting Kamepalle Junction with Bhadrachalam Road, was opened in 1927. These two lines were designed to develop coal fields in the area. In the years that followed, many improvements involving the remodelling of the railways have taken place. Of these, doubling of the Vijayawada-Dornakal section of the railway in the district deserves mention. Khammam, besides being the headquarters, is an important railway station in the district from which several important express and passenger trains pass through. It is a commercial town having inward and outward traffic in a variety of items. Of the other important stations in this district, Garla and Komepalle are important. It is at Kamepalle Junction at which one branch line from Singareni Collieries and another from Bhadrachalam Road join the line going to Dornakal Junction on the Kazipet, Vijayawada section of South Central Railway.

The Road Transport Department was continued till 1950 as integral part of the Railway administration. Later it was brought under the control of State Government and was run as a separate department. Since then, the Corporation has enlarged its operations so rapidly, it was operating district routes with large number of vehicles. In addition the buses starting from the city depot at Hyderabad and other depots in the neighbouring districts also serve the traffic needs of the district.

Prior to 1973, Khammam district was under the jurisdiction of Regional Transport Officer, Warangal. In 1973, a separate office was opened at Khammam for the convenience of general public transport operations at Khammam. There are two A. P. S. R. T. C. Bus Depots situated at Khammam and Kothagudem with fleet strengths of 102 and 87 buses respectively. Depot at Bhadrachalam is opened recently.

PLACES OF INTEREST

Places of religious institutions (temples) and mutts and charitable institutions and institutions of historical or archeological importance in the district are presented in the following two statements for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS/TEMPLES AND MUTTS IN KHAMMAM DISTRICT

Sl.No.	Taluk	Name of the town/village	Name of the Monuments/Temples/Mutts
1	2	3	4
1.	Sudimalla	Garla	Stone Circles (Megalithic burials-pre-historic times)
2.	Kothagudem	1. Karukonda	Buddhist and Andhra sites
		2. Palwancha	Cairas (Belonging to 1st to 3rd Century. Megalithic burials-pre-historical times)
3.	Aswaraopet	Annapureddipalle	* 1. Sri Balaji Venkateswara Swamy
			2. Sri Venkateswara Swamy
4.	Madhira	1. Jemalapuram	* Sri Venkateswara Swamy Devasthanam
		2. Madhira	Flakes, cores and other stone implements (Neolithic implements-pre-historic times)
5.	Khammam	1. Khammam	+ 1. Sri Venkateswara Swamy
			2. Fort (Hindu Fort of 11th Century, said to have been built 900 years ago)
			3. Stone Circle (Megalithic burials-pre-historic graves)
		2. Nelakondapalli	Cairns & Menhives (Megalithic burials-pre-historic graves)
6.	Thirumalayapalem	1. Jeela Cheruvu	+ Sri Venkateswara Swamy
		2. Gollapadu	Stone Circle (Megalithic burials-pre-historic graves)

* The institution has an income of Rs. One lakh and above.

\+ The institution has an income of Rs. Twenty thousand and above.

Source: Commissioner of Endowments, A. P. Hyderabad, 1981. The Director, Archaeology and Museums, Hyderabad, Andhra Pradesh, 1981

Places of Tourist Interest.

Bhadrachalam (Bhadrachalam Tk.) : Bhadrachalam is built on the bank of the river Godavari, about 160 Kms. from Rajahmundry and 39 Kms. from Bhadrachalam road-railway station. One can also reach this place by launch from Rajahmundry which is 161 Kilometres from here. Communication facilities to this place improved considerably with the construction of a bridge over the Godavari in 1965 and Bhadrachalam is now connected with all important places in the state including Hyderabad.

The name Bhadrachalam is derived from a rock, where the Saint Bhadra is said to hava performed *tapassu*. Bhadrachalam is famous for the temple of Sri Rama. It is considered a holy spot since Lord Rama is supposed to have lived here for some time. The temple is said to have been constructed on the very spot where Rama crossed Godavari on his expedition to Ceylon. The *Mandapam*, which is a flat-roofed building, stands infront of the temple and is approached by steps from the river. An annual festival is held here on Sri Rama Navami day which is attended by about 2-3 lakhs of pilgrims from all over the country. It is said that Ramadas, who was a revenue officer under Abul Hasan Tane Shah, the last of the Qutub Shahi kings, spent Rs. 6 lakhs of the public funds in his care towards building the temple. It is believed that when he was punished for this act, God Rama himself along with his brother Lakshmana came down in human guise and paid back the amount. The place, surrounded by thick forests and the Godavari flowing on one side, affords a delightful scenery to the tourists and is one of the most important tourist centres in the state.

Kunavaram : (Bhadrachalam Tk.) : Kunavaram village which stands at the confluence of Sabari and Godavari is an important point for river borne trade as it lies beyond the ghats and the unbridged Sabari. Kunavaram is a holy place for Hindus and they have a holy dip at the confluence on auspicious occasions.

Parnasala : (Bhadrachalam Tk.) : It is situated on the left bank of the Godavari at a distance of 35 Kilometres from Bhadrachalam on the Bhadrachalam - Venkatapuram bus route. Launches ply to this place from Bhadrachalam. Parnasala is a noted pilgrim centre as Sri Rama stayed here along with Sita and Lakshmana towards the end of his exile in Dandakaranya. Parnasala draws a congregation of 10,000 Hindu devotees during Sri Rama Navami festival which is celebrated during March-April.

Ravigudem (Bhoorgampadu Tk.) : This village is situated on the right bank of river Godavari. It is noted for the temples of Kedareswara and Bhuvaneswara, the lingams (Phaltic emblems) of which are believed to be consecrated by the sage Agastya. This is a noted pilgrim centre and attracts a gathering of 10,000 devotees during Mahasivaratri festival which falls in February - March.

Yanambailu (Kothagudem Tk) : This village lies at a distance of 11 Kms. from Palwancha. The Kinnerasani project at this place is designed mainly to supply water to Kothagudem Thermal Station and to irrigate about 4,047 hectares of land. The natural environments and project site present a beautiful scenery

Khammam : Khammam is the headquarters of the district, the Revenue Division and the taluk of the same name. It is situated at a distance of 257 kilometres from Hyderabad on the Hyderabad-Vijayawada section of the South Central Railway.

Khammam is an ancient town and was an important seat of administration under the rule of Kakatiyas of Warangal in 1229 A. D. The most important place in the town is the massive fort constructed on the hill known as Stambhadri. The stones of the hill were tall like pillars and capable of supporting the ceilings of temples and Mantapas. The town got the name Stambhadri due to Stambhams (supporting pillars) made out of the hill. Stambhadri is known as Khammamett in Telugu and Khammamett was changed to Khammam in due course of time. The Muner flows by the side of the town and has a legendary association with the sage Moudgalya, who is said to have done penance on the hill and his stone image is found in the temple of Lakshminarasimha. The chief places of Hindu worship are the shrines of Stambhadri Lakshmi Narasimha Swami, which is an ancient one, Venkateswara also known as Balaji and Sri Rama. There are two ponds, one at the foot of the hill and the other on the top of it. The latter is so big that its banks appear as two hills and provides shelter to huge aquatic animals. The *Kalyanotsavam* of Lakshmi Narasimha Swami celebrated for five days during April - May is attended by thousands of devotees of neighbouring districts.

Nelakondapalle (Khammam Taluk) : This village was the birth place of Kancherla Gopanna alias Ramadas who constructed or renovated the temple of Sri Rama at Bhadrachalam. The existence of the places known as Viratarajadibba and Kichakagudam at a distance of one mile from the village denotes the importance of the village during the days of Mahabharata. The old relics including the unearthed coins in an area within a radius of 16 Kms, the supposed relics of the cow-sheds of Sahadeva and the horse stables of Nakula traced in Gunalagudem confirms this aspect. The village is fairly a big one and it is a centre of trade for the surrounding villages.

Palair (Thirumalayapalem Taluk) : This village owes importance because a reservoir named Paler Project constructed across the river commands an ayacut of 7,958 hectares. The place is one of a scenic beauty.

Kothagudem:This town is situated at a distance of 93 Kilometres from Khammam and about 39 Kms. from Bhadrachalam. It is the centre of activity of the Singareni Colleries administration and many of its offices are located here. Pilgrims and others bound to Bhadrachalam have to alight here and travel by bus. There is a thermal station and the industrial activity of the town attracts a large number of people from all parts of the State.

Somavaram (Madhira Taluk) : The village is situated at a distance of 31 Kms. from Khammam on the Khammam-Aswaraopet road. Wyra project built accross river Wyra commands an ayacut of 5,711 hectares, is a place of interest in this village.

Nugur (Nugur Taluk) : This is a petty Koya village and got the name Nugur after Nugur Rajas who lived with their retinue in a mud fort in this village. The ruins of this mud fort and the temple of Potharaju still exist at the place. As this place happened to be the habitat of the Nugur Rajas, the taluk was named after them.

Singareni (Yellandu Taluk) : This village assumed importance due to the location of Singareni Colleries in which coal is mined in large quantities and supplied to the railways.

CENSUS CONCEPTS

Rural and Urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i. e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 pesons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations however was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuit,

iii) A density of population of atleast 400 persons per sq. km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns	Population size
Class I	100,000 and above
Class II	50,000 – 99,999
Class III	20,000 – 49,999
Class IV	10,000 – 19,999
Class V	5,000 – 9,999
Class VI	below 5,000

The class I towns are termed as cities.

Standard Urban Areas : Besides classification of all places into rural and urban areas, two more concepts viz., urban agglomeration and Standard Urban area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a standard urban area are : (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such

town groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes.

a) A city with continuous outgrowth (the part of out growth being out of the statutory limits but falling within the boundaries of adjoining village or villages);

b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a);

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Visakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common court yard or stair case etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hostels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes: Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders, (Amendment) Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. BC 12016 / 34 / 76–SCT–V dated 27 - 7 - 1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work."

In the concept of work, a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired

according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories :

1. Household duties i. e., all those persons basically engaged in unpaid home duties doing no other work ;
2. Students i. e., all full-time students or children attending school ;
3. Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work ;
4. Dependent i. e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent ;
5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work ;
6. Institutional inmates i. e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers — all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the District Gazetteer consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the II world war, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The village statements: Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R. A. Gopala Swamy, I. C. S., the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the District Census Hand book' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General population tables, economic tables on Scheduled Castes and

Scheduled Tribes. The fourth part consisted of village and town directory which was the most vital part of the Handbook, giving the village-wise and town-wise primary census abstract i. e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons—1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B and Part C as shown below :

Part–A : Village and Town Directory

Part–B : Village and Town Primary Census Abstract

Part–C : Administrative Statistics and Report

Parts A and B were bound in a single volume and were pubished for all the districts as early as in 1974. However the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Part–A : Analytical Note

Part–B : Village and Town Directory and Village and Town-wise Primary Census Abstract.

It has been decided not to go in for administrative statistics that is Part – C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directoy and of seven statements on town directory are on the same pattern as canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (DCH). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the

directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Columns 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or under water, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and unirrigated (columns 16 & 17) This includes the land under the following three categories.

(i) Net area sown :

The net are sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming, etc.

(iii) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable waste (Column18) This includes the land under the following three categories.

(i) Permanent pastures and other grazing lands :

These cover all grazing lands whether they are permanent

pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops, groves not included in the area sown :

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste :

This includes land available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation. (Col. 19)

This includes the land under the following two categories.

(i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or underwaters, e. g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest, and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this background that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted at

1971 Census except for a few additional columns. The titles of the statements are as follows :

Statement I : Status and growth History.

Statement II : Physical aspects and location of towns, 1979.

Statement III : Municipal Finance, 1978–79.

Statement IV : Civic and other amenities, 1979.

Statement IVA : Civic and other amenities in notified slums, 1979.

Statement V : Medical, Educational, Recreational and cultural facilities, 1979.

Statement VI : Trade Commerce, Industry and Banking, 1979.

With a view to facilitate analysis of data, a few new columns have been introduced. The columns–class of town, in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic Administrative status in statements III and IV and population in statements IV and V also serve the same purpose. The formats of Town-Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/centres in Statement V are identical.

In case such of the amenity as fire fighting service in statement IV, the Educational facility in Statement V is not available in the town, the name of the nearest place of the same district or the name of the nearest district of the same state or other state where available along with its distance from the referrent town has been given. This is a new feature of 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i. e., population by Religion and Scheduled Castes / Scheduled Tribes in towns of 1971 Census was discontinued at the 1981 Census and a new statement IVA has been introduced to explore the possibility of civic and other amenities available in notified slums in Class I and II towns only.

The following seven places are the urban units in Khammam district at the 1981 Census.

1. Bhadrachalam
2. Khammam
3. Kothagudem
4. Madhira
5. Motugudem
6. Palwancha
7. Yellandu

Of these, Khammam is the only Municipality. All others except Kothagudem and Motugudem are Panchayat towns. Kothagudem town is governed by Notified Area Committee and the civic status of Motugudem is not determined.

Of these seven towns, Motugudem is the only place classified as town for the first time in 1981 Census in consideration of the distinct urban features. Yellandu was classified as town as early as 1901. Khammam was classified as town from 1911. Palwancha was classified as town at 1931 census, declassified at 1951 census and again it was classified as town at 1971. Kothagudem and Madhira were classified as towns from 1941 and 1951 respectively. In 1961 census, Bhadrachalam was classified as town.

None of the towns in this district has been treated as urban Agglomeration. Khammam and Kothagudem towns with some of their surrounding villages as shown below have been treated as standard urban areas in this district.

Standard Urban Area	Component Units	
	Urban	Rural
(1)	(2)	(3)
1 Khammam	1 Khammam (M)	1 Kannapuram Haveli (R)
		2 Velugumatla
		3 Dhamsulapuram
		4 Danavaigudem
		5 Edulapuram
		6 Gurralapadu
2 Kothagudem	1 Kothagudem(NAC)	1 Chunchupalle
	2 Palwancha (P)	2 Chathakonda
		3 Sujatnagar

Khammam, the district headquarters town has a population of 98,757 persons is the first largest town while Kothagudem, the coal mining and industrial town is the second largest town with 94,894 persons. These two towns only are Class II towns with population ranging between 50,000 and 99,999 persons each Bhadrachalam, Palwancha and Yellandu are Class III towns with a population ranging from 20,000 to 50,000. Madhira is Class IV town with a population ranging between 10,000 and 20,000. Motugudem, a newly classified town during 1981 Census is a Class VI town with a population below 5,000. There are no Class I towns in this district. The largest town in the district according to area is Palwancha with 101.70 Sq Kms. while Bhadrachalam is the smallest unit with an area of 4.00 Sq. Kms. The area figure of Motugudem, the newly classified town, is not available.

The details given in each of the seven statements of the Town Directory are explained below:

Statement I: Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 Census and sex ratio from 1961 to 1981 Censuses of each town in columns 2 to 19.

In this as well as in all other Town Directory Statements, Columns 1 and 2 relate to serial number and Class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the State and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
1,00,000 and above	I
50,000–99,999	II
20,000–49,999	III
10,000–19,999	IV
5,000–9,999	V
Below 5,000	VI

The civic Administrative status of the town is indicated in brackets by abbreviated letters like 'M' for Municipality, 'P' for Panchayat and NAC for Notified Area Committee. The location code number under Col. 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and All India levels. Area in Sq. Kms. and number of households including houseless households for each town are included in the town directory for the first time at the 1981 Census. The population of the town with decadal growth rate from 1901 to 1981 Censuses is given in columns 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new column (Col. 16) introduced to facilitate analysis of Town Directory data. It has been calculated taking into account the area and the population of 1981 Census of the town and presented per Sq. Km. Sex-ratio from 1961 to 1981 Censuses has been given in cols. 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex-ratio defined here is number of females per 1,000 males.

Excepting Yellandu, all the towns in this district have a steady growth in their population. Yellandu had shown a decline in its growth of population consecutively for four decades from 1921–31 to 1951–61. Palwancha, Bhadrachalam and Khammam have registered a significant increase in population than the other towns due to their Religious and commercial importance.

Bhadrachalam town with an area of 4.00 Sq. Kms. records the highest density of 5,339 persons per Sq. Km. as against the district average density of 109 persons per Sq. Km. Next to it, Khammam, the district headquarters town with an area of 18.53 Sq. Kms. has recorded a density of 5,330 persons per Sq. Km.

Statement II: Physical aspects and Location of towns, 1979.

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under Cols.3 to 5 in the statement, data relating to the rainfall recorded in 1978, Maximum and Minimum temperatures recorded in 1971 are given. These data if not available for any town, then data available for the nearest town have been given against such town.

The district is served by a metre gauge system of the South Central Railway. The Madras–

Delhi line passes through the district touching Madhira and Khammam towns and two branch lines are radiate from Dornakal, one to Yellandu and the other to Kothagudem and Palwancha. The other two towns Bhadrachalam and Motugudem are at a distances of 29 Kms. and 140 Kms. from the nearest railway stations. All the seven towns in Khammam district are linked by Bus services and the A. P. S. R. T. C. has been providing necessary transport facilities.

None of the seven towns in this district are in the vicinity of any sea port or navigable rivers except Bhadrachalam town where the river Godavari provides navigation facilities for cargo and passenger movements.

Statement III : Municipal Finance, 1978-79

The data for inclusion in this statement was obtained from their budgets and accounts made available by the respective statutory and non-statutory bodies.

The table shows that no town has an excess of expenditure over income except Madhira and Yellandu. In Yellandu town 30% of the total receipts was utilised for purposes of public health and conveniences. Only Motugudem and Palwancha towns have spent on public institutions like schools and libraries while the rest have not spent anything from their incomes on these items.

Statement IV : Civic and other amenities, 1979.

As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The most striking feature in all the towns has been the conspicuous absence of underground drainage system. Palwancha is the only town having sewerage facility in addition to the open surface drains while the other towns are having only open surface drainage system. All the towns are having the facility of protected water supply. All the seven towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh, domestic service includes supply of energy for lighting, fans and domestic purposes in domestic premises and supply in poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government Departments or co-operative house building societies and pump sets of Railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, through fares including parks, markets, cart stands, bridges and for traffic signalling Supply of energy to places of worship like churches, temples, mosques, gurudwaras, educational institutions, student hostels, Municipal guest houses, T. Bs., Circuit houses of the Government charitable institutions and recognised service/institutions are included in "Others".

Khammam has the highest number of industrial connections followed by Kothagudem town. Regarding street lighting also Khammam town has the highest number of points, followed by Kothagudem town.

Statement IV A : Civic and other amenities in notified slums, 1979.

This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in Class I and II towns. Since the magnitude of slum is greater in respect of Class I and II towns, presentation of data on slums is limited to Class I and II towns only. Khammam and Kothagudem are the only Class II towns in this district.

Statement V : Medical, Educational, Recreational and Cultural facilities, 1979.

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district. All the towns in the district have hospitals. There are 92 Medical institutions which include Government hospitals, dispensaries, nursing homes, maternity and child welfare centres, family planning Centre and T. B. Clinic together with a total bed strength of 1,073 catering to the medical needs of a total urban population of 297, 386 persons. Khammam and Kothagudem towns possess medical facilities with 515

and 383 beds respectively and this is comparatively better than the other towns in the district. With reference to population in towns, there are 192 persons per bed in Khammam, 219 persons in Madhira and 249 persons in Kothagudem and for other towns in the district, this facility is not satisfactory.

There are 6 degree colleges, one at Madhira, two in Kothagudem and three in Khammam town.

There are eight Junior colleges or Higher Secondary schools 29 secondary or high schools, 46 Junior Secondary or Upper Primary Schools and 70 Primary Schools in all towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle classes have been included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say Class IV and one high school from Class I to X, the number of primary schools in the town is given as 3 and that of middle school as one and secondary school as one eventhough there are physically only three educational institutions. Again a composite school having classes upto class XII has been divided as shown below :

Class	I	to	IV	:	Primary
Class	V	to	VIII	:	Middle
Class	IX	to	X	:	Secondary
Class	XI	to	XII	:	Higher Secondary

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind. This grouping holds true irrespective of educational insttiutions they belong to. For instance, the grouping marked as Higher Secondary i. e., class XI and XII may physically belong to a college but for the purpose of town directory these two classes put together constitute one unit of a Higher Secondary school and the rest of the college has been treated as a college.

There is only one Stadium in Kothagudem town There are 26 cinema halls, 4 auditoria/ Drama/Community halls and 20 public libraries including reading rooms in all the seven towns put together.

Statement VI : Trade, Commerce, Industry and Banking, 1979.

Khammam district with all its rich reserves of mines and minerals, power potentialitiesis industrially a backward district. There are only two large scale industries (i) Singareni Collieries company limited, engaged in coal mining and (ii) The Barium Chemicals Limited, manufacturing barium salts. The rice and oil mills mainly located at Kothagudem, Khammam and Yellandu, the engineering and sheet metal industries at Khammam and Kothagudem, bone meal unit and brass metal work in Khammam, aerated water unit at Kothagudem and stone crushing unit at Yellandu are important among the small industries.

The district is served by a net work of 29 banks of which 12 are located in Khammam, 5 at Kothagudem, 4 at Bhadrachalam, 3 each at Madhira and Yellandu towns and 1 each at Motugudem and Palwancha towns. Seven Agricultural Credit Societies and 110 Non-agricultural Credit Societies are serving the total urban population of the district.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part–II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas.

1. Location Code number and name of village/town and area.
2. Total number of occupied residential houses and total number of households.
3. Total population and its sex breakup.
4. Population of Scheduled Castes and Scheduled Tribes by sex breakup.
5. Literate persons by sex.
6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories.
   viz :

Category	I	: Cultivators
Category	II	: Agricultural Labourers
Category	V(a)	: Household Industry
Category	III, IV, V(b) & VI to IX	: Other Workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L.C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L. C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 irrespective whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc, or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Khammam district is as follows :

	Persons	Males	Females
T	1,751,574	895,013	856,561
R	1,454,188	742,092	712,096
U	297,386	152,921	144,465

Col No. 1 & 2 indicate L. C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process Khammam district was allotted L.C. No. 22. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L. C. Nos. of villages were given in Arabic numerals while those of towns in Roman numerals.

Col 3: This column shows the area of villages in hectares while the area of town is given in Sq KMs based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P.C.A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures

Col. 4: Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5: This column includes houseless households and institutional households as well.

Cols 6 to 8. Total population includes houseless and institutional population with sex break up

Cols 9 to 12. Under these columns the population of S. Cs. and S Ts. by sex is given. A copy of the list of S. Cs. and S. Ts. in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 27–7–1977 is appended hereunder.

17. Kotia, Bentho Oriya, Bartika, Dhulia, Dulia, Holva, Paiko, Putiya, Sanrona, Sidhopaiko.
18. Koya, Goud, Rajah, Rasha Koya, Lingadhari Koya (Ordinary), Kottu Koya, Bhine Koya, Raj koya.
19. Kulia
20. Malis (excluding Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Nizamabad, Medak, Nalgonda and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks (in the Agency tracts)
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras.
29. Sugalis, Lambadis.
30. Thoti (in Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts).
31. Valmiki (in the Agency tracts)
32. Yenadis
33. Yerukulas

Cols. 13 & 14 : Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Col 15 to 28 : At the 1981 Census, population has been broadly divided into three sections

based on main activity viz., workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work: Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer : A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household industry : Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 334,947 occupied residential houses and 344,065 households in Khammam district compared to 248,765 residential houses and 266,749 households in 1971 registering an increase of 34.64 % in number of residential houses and 28.98 % in number of households.

The total number of persons returned at the 1981 census in Khammam district is 1,751,574 as against 1,369,892 in 1971 Census, thus recording an increase of 27.86 % as against the state growth rate of 23.10 %. The proportion of rural and urban population to the total population in the district works out to 83.02 % and 16.98 % respectively in 1981 Census compared to 86.4% and 13.6 % in 1971 There are 957 females per every 1,000 males at the 1981 Census when compared with state index of 975 females per 1,000 males. The same ratio of 957 females per every 1,000 males was recorded at 1971 Census.

Khammam district returned 448,245 literates at 1981 Census forming 25 59 % of the total population of the district compared with 253,500 literates constituting 18.5% at 1971 Census. The literacy rates by sex break up during 1981 Census are 33.16% among males and 17.68% among females. Rural–Urban breakup of literacy rates indicate that 20 30 % of population in rural and 51·44 % of the population in urban areas are literates. The corresponding rural and urban rates of literacy at 1971 census are 14 6 % and 43 3 % respectively.

In Khammam District, there are 788,955 workers constituting 45.04 % of the total population as against 562,567 workers forming 41.1 % in 1971 Census. Among males the workers constituted 56.92 % while among females only 32.63 % are workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 1,223 villages in the district at the 1981 Census as against 1,226 at 1971. During the decade one village loosing its individual status as separate village, has become a hamlet. two partly included villages at 1971 are fully included in their respective urban areas by loosing their rural character completely. Out of the 1,223 villages, 1,101 are inhabited while 122 villages are uninhabited. Three inhabited villages are reported as partly included in different towns of the district. Fourteen villages which are fully included in urban areas are not taken into account in arriving the total number of villages in the district. Following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Kothagudem taluk has more urban population than other taluks, while Madhira taluk has the least urban population as per 1981 Census. Seven are returned as exclusively rural taluks.

Table 1

POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500-1,999 population and form 37.97% of total villages in this district.

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No. of Villages in each range	Percentage of villages in each range
1	2	3
- 199	216	19.62
200 - 499	229	20.80
500 - 1,999	418	37.97
2,000 - 4,999	196	17.80
5,000 - 9,999	36	3.27
10,000 +	6	0.54
Total	**1,101**	**100.00**

Table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per Sq. Km. of each villages have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 101-200. More than 64% of villages come under density group 101 and above This district has returned a density of 109 persons per square kilometre as against 195 persons for the State.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY.

Range of density (Per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
- 10	29	2.63
11 - 20	34	3.09
21 - 50	131	11.90
51 - 100	202	18.35
101 - 200	326	29.61
201 - 300	190	17.26
301 - 500	122	11.08
501 +	65	5.90
Not known	2	0.18
Total	**1,101**	**100.00**

According to 1981 Census the population of Scheduled Castes in Khammam district is 259,925 accounting for 14.84% of the total population of the district. Scheduled Caste population in this district forms 3.26% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 42.33% of the villages have Scheduled Caste population in a percentage range above 11. Only 30.79% of villages are without Scheduled Caste population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES.

Percentage range of Scheduled Castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
Nil	339	30.79
5 or less	164	14.89
6 - 10	132	11.99
11 - 15	93	8.45
16 - 20	105	9.53
21 - 30	153	13.90
31 and above	115	10.45
Total	**1,101**	**100.00**

The Scheduled Tribes population in the district is only 429,959 persons forming 24,55% of the the total population of the district. 45.96% of the total villages in the district have returned the proportion of Scheduled Tribe population 51 and above range, which exclude 9.72% of the total number of villages which have no Scheduled Tribe population. Among the taluks, highest proportion of Scheduled Tribe population is returned in Bhadrachalam taluk accounting for 49.93% of the total Scheduled Tribe population in the district.

Total	**1,101**	**100.00**

Table 7 provides the total population, Scheduled Caste and Scheduled Tribe population and the percentage of scheduled caste and scheduled tribe population to total population of the towns in the district.

The total scheduled castes population in all the urban areas of the district at 1981 Census was 39,603 persons representing 13.32% of the total urban population. Among the towns, proportions of scheduled caste's population varies from 8.14% in Bhadrachalam town to 20.57% in Kothagudem town.

The scheduled tribe's population in urban areas of the district according to 1981 Census was 16,825 persons constituting 5.66% of the total urban population. The proportions of scheduled tribes population varies from 2.43% in Madhira town to 14.60% in Palwancha town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

The following Table 8 gives the literacy rates by population ranges of villages in the District. In the proportion of literates Khammam District occupies 18th rank in the total literates of the State. The proportion of literates of this district constitutes 2.80% of the total Andhra Pradesh literates.

Highest literacy rate of 26.55% is found in Villages with 5,000–9,999 followed by 10,000+ population.

Tabel 8

LITERACY RATES BY POPULATION RANGES OF VILLAGES.

Range of Population	No. of villages in each range	Literacy rate
1	2	3
- 199	216	6.40
200 - 499	229	12.20
500 - 1,999	418	17.86
2,000 - 4,999	196	20.72
5,000 - 9,999	36	26.55
10,000 - +	6	24.14
Total	**1,101**	**20.30**

Table 9 shows the literacy rates for the towns in the district as per 1981 Census.

The literates in all the 7 urban areas in the district together constitute 152,980 persons forming 51.44% of the urban population. Among the towns, the literacy rate varies from 42.24% in Motugudem town to 57.22% in Khammam town. Being the district headquarters and due to the location of several district administrative offices and educational institutions, Khammam town tops in proportions of literates.

Table 9

LITERACY RATES FOR TOWNS

Name of the Town	Literacy Rate
1	2
Bhadrachalam	55.17
Khammam	57.22
Kothagudem	48.21
Madhira	55.24
Motugudem	42.24
Palwancha	45.20
Yellandu	47.74
All Towns	**51.44**

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a higher concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas. Khammam district has returned 25.59% of the total population of the district as literates. Khammam taluk has returned 34.48% of literates and this is the highest in the district. Khammam taluk has returned the largest number of workers 90,108 in its rural areas accounting for 12.76% of the total rural workers of the district and 49.72% of the total rural population of the taluk. Nugur taluk stands first among the taluks in the district in the proportion of workers to total population. Madhira taluk has returned 20.16% of scheduled caste population while the least is in Sudimalla taluk with 8.81%. In rural areas of taluks, Madhira with 20.32% stands the highest while Sudimalla recorded the last position with 8.81%. The per centage of scheduled caste population in urban areas range between 8.43% to 17.66% among the taluks. Sudimalla taluk has recorded highest proportion of scheduled tribe population with 54.64% while Madhira taluk has the least proportion of scheduled tribe population with only 3.27%.

Khammam taluk tops the list in literacy rates among the total, male and female population as well as in urban areas. In respect of rural areas Sathupalle taluk stands first in the list. The literacy rates recorded for these two taluks viz; Khammam and Satupalle are higher than the district average in the case of both sexes.

Distribution of villages according to the availability of different amenities by taluks is presented in the following table. As seen from the table, drinking water facilities are available to 99.73% of the villages, while amenities of education approach by pucca road and power supply, communications, P & T are available in respect of 77.02%, 56.58%, 47.68%, 47.59%, 47.32% of villages respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz, 22.25% of villages have medical facility 2.36% of villages have market facilities.

The table 11 clearly sets out the talukwise position of various amenities.

Table 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise.

44.00% per cent of population has only medical facilities while about 3.82% of population has access to market facilities.

Post and Telegraph, power supply, approach by pucca road and communication facilities are available to 81.21%, 76.23%, 73.20% and 65.45% of the population of the district respectively while 96.40%, and 99.98% of the population has access to education and drinking water facilities.

Table 12

Table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There are 3 villages in this district which do not have drinking water facility. Over one fifth of the villages (253) do not have educational facility within the village, but these are available at different distance ranges. Large number of villages do not have market medical, communication and P & T facilities within the village, but are available at different distance ranges.

Tabale 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+kms.	Total (Cols.2 to 4)

P & T	372	135	73	580
Market	107	126	531	764
Communication	374	134	69	577

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

4% of the villages have town within the range of 0–5 KMs. About 16 per cent of the villages have towns within a range of 6–15 KMs., while the balance has nearest town located within 16-50 KMs. (53%) and 51 KMs. (27%) respectively. As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance rangefrom the nearest town (in Kms.)	No. of inhabited villages in each range and percentage to total	Number (with percentage) of villages having the amenity of

Total	**1,101 (100.00)**	**848 (77.02)**	**245 (22.25)**	**1,098 (99.73)**	**512 (47.32)**	**26 (2.36)**	**524 (47.59)**	**622 (56.58)**	**525 (47.68)**

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500–1,999, 2,000–4,999 and 5,000 are considered and the villages are distributed in these ranges. 37.97% of the villages are in the range of 500–1,999, while the villages less than 500 and those in the range of 2,000–4,999 form 40.42% and 17.80% respectively. Only 3.81% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier only the medical and market facilities are not adequate in rhe villages falling in the ranges other than 5,000+.

Table 15

DISTRIBUTION OF VILLAGES TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range and percentage to total	Number (with percentage) of villages having the amenity of

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 36.72% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 446,948.25 hectares, 77,985.96 hectares forming 17.45% is only tenable. Thirumalayapalem taluk has the largest percentage of cultivable area of 69.02% while the irrigated area is only 18.24% of cultivable area. Aswaraopet taluk has the least proportion of cultivable area of 18.18%. Among the taluks in the district Sathupalle taluk has the highest percentage of 30.95% irrigated area to total cultivable area of the taluk.

Table 17

The following table indicates the towns added declassified at the 1981 Census with their population.

There is only one town Motugudem with 4,569 population added to the 1971 list of towns and no town was declassified at 1981 Census in this district.

Table 19

NEW TOWNS/TOWNS DECLASSIFIED IN 1981 CENSUS

a) Added	
(1) Motugudem	4,569
b) Declassified	
Nil	...

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district as on 1979.

Of the seven urban areas in the district, the highest per capita total receipt is noticed in Khammam Municipality (Rs. 71.33) followed by Madhira Panchayat (Rs. 33.10) and Bhadrachalam Panchayat town (Rs. 26.04) takes the third rank. The lowest per capita total receipt is recorded in Motugudem town (Rs. 12.50). Receipt through taxes is highest in Khammam Municipality (Rs. 28.31) while this is Lowest in Motugudem town (Rs. 1.56). From all other sources together, the highest per Capita receipt is seen in Khammam Municipality (Rs, 43.02) followed by Madhira Panchayat (Rs. 21.26) and Bhadrachalam Panchayat (Rs. 18.50) while the lowest per capita receipt is recorded by Palwancha town (Rs. 4.13).

Khammam Municipality stands first among the urban areas of the district with its per capita expenditure of (Rs. 67.88) followed by Madhira Panchayat (Rs. 41.85) and Bhadrachalam Panchayat (Rs. 25.05). Motugudem town ranks last in per capita expenditure (Rs. 4.99). The per capita expenditure of (Rs. 7.05) on public health and conveniences in Khammam is the highest among the towns while Motugudem has the lowest of (Rs. 0.94).

The highest per capita expenditure of (Rs 16.70) on public works is recorded by Khammam Municipality. While Motugudam town has the minimum of (Rs. 0.06).

Except Motugudem and Palwancha, no town has spent from its receipt on public institutions like schools and libraries in the district.

All the civic bodies are running on sound lines with surplus budget except Yellandu and Madhira towns which are functioning with deficit budget. Kothagudem and Motugudem are having considerably more per capita receipts than per capita expenditure.

Table 20

PER CAPITA RECEIPT AND EXPENDITURE IN TOWNS

NAC : Notified Area Committee

The following table 21 provides data relating to the availability of educational facilities in different categories per 10,000 population.

There are 70 Primary Schools, 46 Upper Primary Schools, 29 high schools and 8 Junior Colleges in all the urban areas of the district.

Table 21

SCHOOLS PER TEN THOUSAND POPULATION IN TOWNS

Class, name and civic status of Town	Number per ten thousand population

Total	**0.27**	**0.98**	**1.55**	**2.35**

From the table 22, it can be seen that the number of beds available in urban areas of this district is very low being 3.61 beds per every 1,000 population. The bed-population ratio is highest in Khammam Municipality where there are 5.21 beds per 1,000 population. Kothagudem and Madhira towns have recorded the bed-population ratios more than the district average. All other towns have this ratio less than the distirct index.

Table 22

Physically Handicapped Persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After Independence, the data for the physically handicapped persons in our country were collected against for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows:

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both arms, will be totally crippled, though the legs or arms as such are still physically present".

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, etc., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Khammam district is given overleaf.

DISABLED POPULATION BY TYPE OF DISABILITY—KHAMMAM DISTRICT

Physically handicapped form 0.21% of the total population in the district, comprising of 0.23% of rural and 0.12% of urban population. Out of the total 3,466 persons recorded as physically handicapped, i.e., totally blind, totally crippled and totally dumb in the district as many as 3132 persons forming 90.36% are from rural areas only. Among the total physically handicapped in the district, 41.11% are totally blind, 31.65% are totally crippled and 27.24% are totally dumb. The survey revealed that Khammam taluk has recorded the highest number of physically handicapped persons accounting for 643 persons, the lowest being Bhoorgampadu taluk with 71 persons.

PART-B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory

SECTION II – Town Directory

SECTION III - Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No. 5)

P	:	Primary or Elementary School (Upto Class IV)
M	:	Middle School or Junior Secondary (Class from V to VIII)
H	:	Matriculation or Secondary School (Class from IX and X)
JC	:	Higher Secondary / PUC / Intermediate / Junior College
C	:	College
I	:	Industrial School
Tr	:	Training School
AC	:	Adult Literacy Class / Centre
O	:	Other Educational Institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No. 6)

H	:	Hospital
MCW	:	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	:	Maternity Home
CWC	:	Child Welfare Centre
HC	:	Health Centre
PHC	:	Primary Health Centre
PHS	:	Primary Health Sub-Centre
D	:	Dispensary
FPC	:	Family Planning Centre
TB	:	T. B. Clinic
NH	:	Nursing Home
RP	:	Registered Private Practitioner
SMP	:	Subsidised Medical Practitioner
CHW	:	Community Health Worker
O	:	Others

Drinking Water : (Column No. 7)

T	:	Tap
W	:	Well
TK	:	Tank
TW	:	Tube Well
HP	:	Hand Pump
R	:	River
F	:	Fountain
C	:	Canal
L	:	Lake
S	:	Spring
N	:	Nallah
O	:	Others
NA	:	Information not available

Post and Telegraph (Column No. 8)

PO	:	Post Office
TO	:	Telegraph Office
PTO	:	Post and Telegraph Office
Phone	:	Telephone Connection

Communications : (Column No. 10)

BS	:	Bus
RS	:	Railway Station
NW	:	Navigable Waterway

Approach to village : (Column No. 11)

PR	:	Pucca Road
KR	:	Kaccha Road
NR	:	Navigable River
NC	:	Navigable Canal
NW	:	Navigable Waterway
FP	:	Foot Path

Power Supply : (Column No. 13)

ED : Electricity for domestic purpose
EAG : Electricity for Agricuiture
EO : Electricity for other purposes like industrial commercial etc.
EA : Electricity for all purposes listed above

Irrigated by source : (Column No. 16)

GC : Government Canal
PC : Private Canal
W : Well (Without Electricity)
WE : Well (With Electricity)
TW : Tube Well (without Electricity)
TWE : Tube Well (with Electricity)
TK : Tank
R : River
L : Lake
WF : Water Fall
O : Others
T : Total

Remarks, etc. : (Column No. 20)

N : Copies of the News Papers(Coming in the village)
M : Motor Cycles/Scooters
C : Cars/Jeeps
T : Tractors
NNA : copies of number of News paper not available

As an example an entry showing figures like P(2), or D(2),or T(35.21),Tk(35.21)would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35 21 Hectares and extent of land irrigated by water from tanks is 35.21 Hectares.

Where a facility is not available in the village, the distance at which the facility available is shown in broad ranges viz.,—5 Kms; 5-10 Kms; and 10+Kms. of the nearest place.

SECTION II - Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col.2 to denote the civic status of town, the codes used are :

Municipal Corporation/ Corporation :	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In statement IV Col.6 to differentiate category of road the following abbreviations are used.

Pucca Road	PR
Kuccha Road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt.

In Col. 11 the Various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel Barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows:

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell Pumping System	BWP
Pressure tank	PT
Tubewell Water / Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used:

Hospital	H
Dispensary	D
Health Centres	HC
Family Planning Centre	FC
T.B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg: D(2); NH (7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1,2), D (Hom-2, U-1).

Here H(A-1,2) represents one Ayurvedic and 2 Allopathic hospitals and D (Hom.-2,U-1) represents 2 Homoeopathic and 1 Unani dispensaries.

The Codes used for the Col. 6 are as follows :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institutions of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type
Shorthand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B.Ed.College, Teacher's Training institutes, Music/Dancing School, Nursing School, etc., are covered under "Others."

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre–primary Schools. Schools upto Class VIII are treated as Junior Secondary or Middle Schools, Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/ Junior College, etc.

Under Col. 20 the abbreviations given are as follows :

Public Library	PL
Reading Room	RR
